

BPC Meeting 5 July 2018 – Public Participation

Statement on behalf of BRA, Concerning Coles Quarry and HWRC

BRA is aware of the recent proposals made by Bristol and South West Developments, which could result in some benefits to the operation of the HWRC. However, BRA's objections to the 2016 Coles Quarry Planning Application remain in place and unanswered. The drop-in event held by Bristol and SW Developments was not advertised across the whole village. BRA considers the new proposals need to be subject to a new or revised planning application, or at the very least a proper public consultation, and given all due process by North Somerset Council, before any decision is made. BRA urges the Parish Council to ensure this happens.
